The Shop Upstairs - blending body shape and age

After a lifetime in fashion, Denise is one of the few who understands and blends body shape and age.

THE MOST IMPORTANT aspects that make the difference between just looking alright and looking and feeling elegant, is not just what you wear, but how you combine your clothes.

If you are slim and trim or pleasantly plump, Denise will help find the right garments and accessories for you. She will guide you to be a bit more daring by adding colour, sparkle and something fashionably new to uplift and add some glamour and style to your wardrobe, and to your sense of well-being.

Don't miss The Shop Upstairs, where you will find terrific value and style!

KosherWorld

ON THE GROUND floor is the much talked about supermarket, - KosherWorld - which opened its doors to trade at the beginning of July. KosherWorld has already become a routine shopping spot for many residents and visitors to and in the area.

The unique aspect of it, of course, is that if a product is treif (not kosher), it will not be stocked. Shoppers can go into KosherWorld and with absolute confidence purchase any foodstuffs without the need to check its kashrut status. The entire supermarket is under the auspices of the Johannesburg Beth Din.

Apart from the kashrut issue, it is a customer-friendly store from every point of view. It is located in the most strategic point of Jewish Johannesburg, with convenient parking facilities.

The project was the brainchild of three partners, Joel Back, Arnold Garber, and Shaul Daniels. They teamed up with the OK franchise division, part of the massive Shoprite group. This has enabled them to source and stock a wide range of products at extremely competitive prices.

KosherWorld is a medium-sized supermarket, where you can buy everything that you need in the home, from stationery to baby products, pet foods, specially imported kosher sweets and foods from around the globe, as well as a full range of South Afri-

can foods, bakery and deli products, to small electrical appliances.

OK-branded goods are a welcome value range of products recently introduced and stocked. This range of high-quality and extremely well-priced goods, will be extended in due course into a comprehensive offering across food and non-food items.

On the drawing-board and now under development, is a unique and convenient charge card for the whole family, as well as a delivery service for home shopping.

KosherWorld is the only totally kosher supermarket in South Africa; in fact in the entire African continent.

Apart from Israel, similar supermarkets only exist in the US, Canada, and the UK. The community and friends of the community, have welcomed the opportunity to shop at this speciality, well-priced, fully-stocked and convenient supermarket

In order to continually improve its service levels and product offering to the public, the management of KosherWorld encourages and welcomes feedback from all its customers. A suggestion desk and box is prominently positioned where shoppers can complete a suggestion card relating to their in-store experience, or request that additional products be stocked.

Unique to Glenhazel Centre, is that in the

very near future they will open a keilim (cutlery, crockery, pots and pans) mikvah to the public for keilim purchased at KosherWorld and any other store, or for anyone in the community wishing to make their kitchen kosher.

It is a service to the community where people can come and toivel at any time, including after sunset, irrespective of where they have purchased their keilim. The entire concept is to provide a service to the community. Johannesburg Jewry can now claim to have a beautiful all kosher supermarket fully observant of Shabbat (Sabbath) and Yomtov (Jewish Holy Days and festivals) in its heartland.

KosherWorld is the anchor tenant of Glenhazel Centre and is located on the ground floor. At the entrance to KosherWorld, Seattle Coffee will be opening a takeaway kiosk in the very near future.

The first and second floor tenants include Zman Li which is a hairdresser, beautician and nail bar, Gil-Adi which is a speciality Judaica gift shop, corporate promotional gifts and specialised embroidery

The Shop Upstairs is a ladies clothing and accessory store and Howard Joel and Company is a firm of accountants and auditors. All these businesses comply with the halachah (religious law) of not trading or being present in the business during shabbos or Yomtov.
